

# BT Managed Portfolios

Part 2 - Investment Options Booklet  
Drummond Series 2

Issued 1 November 2024

# About the PDS

The PDS should help you to make a decision about whether or not to invest in BT Managed Portfolios ARSN 604 066 686 by:

- giving you a clear overview of BT Managed Portfolios and how it works
- explaining the benefits, features, risks and costs of investing in BT Managed Portfolios
- giving you an understanding of where you can find more information or get help.

The PDS is comprised of 2 parts:

- **Part 1 - General Information**

Please read this for an overview of BT Managed Portfolios and how it works.

- **Part 2 - Investment Options Booklet (this document)**

This document describes the managed portfolio options within BT Managed Portfolios that are managed by Drummond Capital Partners Pty Ltd ABN 15 622 660 182 AFSL Number 534213 (Drummond or the investment manager) (together referred to as the Drummond Series 2 managed portfolio options) as well as the fees and charges that apply to these managed portfolio options.

The PDS contains important information that you should consider before making a decision about BT Managed Portfolios.

BT Managed Portfolios has a Target Market Determination (TMD), which includes a description of who the product is appropriate for. The TMD can be accessed via [bt.com.au/tmd](http://bt.com.au/tmd), or otherwise as set out in the 'Sourcing information' section below.

## Updated information

The PDS may change from time to time. Any changes to information in the PDS that are not materially adverse may be updated by publishing the change on [panoramainvestor.com.au](http://panoramainvestor.com.au). If the change to the information in the PDS is materially adverse, we will update the PDS and provide notice as required by law.

## Sourcing information

The PDS and any updated information, as well as the TMD, are available free of charge by logging into [panoramainvestor.com.au](http://panoramainvestor.com.au), by emailing [support@panorama.com.au](mailto:support@panorama.com.au) or by calling us on 1300 881 716. Paper copies are available upon request.

## General advice warning

The information in the PDS is general information only and does not take into account your personal objectives, financial situation or needs. You should consider whether the information in the PDS is appropriate for you in light of your objectives, financial situation and needs.

## Eligibility

The Drummond Series 2 managed portfolio options are only accessible by clients and advisers of selected dealer groups or their authorised representatives, including Drummond. For the latest list of eligible dealer groups, please contact Drummond on 03 9131 8500 or via email at [enquiries@drummondcp.com](mailto:enquiries@drummondcp.com). If you cease to be a client of an eligible dealer group, you will be able to retain your existing holdings in your Drummond Series 2

managed portfolios via your Panorama Product, however you will be unable to make additional investments into them. Furthermore, the other Drummond Series 2 managed portfolio options will not be available to you.

If you are a client of Drummond, the Drummond Series 2 managed portfolio options in this document are only available to you if you are a wholesale client, within the meaning given by the Corporations Act 2001 (Cth) (Corporations Act). If and when we are notified that you are no longer a wholesale client, you will be taken to have requested:

- a redemption from BT Managed Portfolios in respect of all assets referable to you that are managed in accordance with any Drummond Series 2 managed portfolio(s);
- that those assets be held in, and according to the terms of, the Panorama Product account through which you are accessing BT Managed Portfolios (to the extent permitted by the terms of the Panorama Product); and
- that an asset be sold down and the net proceeds transferred to your Panorama Product account to the extent that the asset cannot for any reason be held directly in your Panorama Product account.

## Consent to be named

Drummond has given and not withdrawn its consent to the inclusion in this document of all information referable to it (and the managed portfolio options it is engaged to manage) in the form and context in which that information appears.

## Availability

If, within your Panorama Investments or Panorama Super account, you only have access to the Compact menu of investment options (and not the Full menu), you may not be able to access some or all of the managed portfolio options described in this document. Refer to the disclosure document for your Panorama Product for more information about the Compact and Full menu. Please contact your adviser or the Panorama Support team to confirm your ability to access and invest in the Drummond Series 2 managed portfolio options.

Managed portfolio options in BT Managed Portfolios other than those described in this document might also be available to you. Information about these other managed portfolio options is set out in separate product disclosure statements for BT Managed Portfolios that are also issued by us. You should obtain and consider those product disclosure statements in deciding whether to acquire or continue to hold any interest in BT Managed Portfolios. Contact the Panorama Support team or your adviser for more information on other managed portfolio options that may be available to you, and to obtain a copy of the relevant product disclosure statement for those managed portfolio options.

# Who is the investment manager?

## Drummond Capital Partners Pty Ltd (Drummond)

Drummond has been appointed by us as investment manager to advise on the construction and management of the Drummond Series 2 managed portfolio options.

<b>ABN</b>	15 622 660 182
<b>AFSL Number</b>	534213
<b>About the investment manager</b>	<p>Drummond is a specialist multi-asset investment manager. It is 100% focused on providing institutional quality portfolio management under the transparent and efficient managed account structure. The business is owned and managed by the investment team that has 70+ years of investment management experience.</p> <p>Drummond is an asset allocation specialist with proprietary strategic and tactical asset allocation processes; this combined with their independent investment manager research delivers high quality, risk aware portfolio solutions.</p>
<b>Investment philosophy and process</b>	<p>Drummond's investment process is separated into four elements: strategic asset allocation, tactical asset allocation, investment manager research and portfolio construction. Each of these processes is proprietary and developed using Drummond's extensive asset management experience in order to provide robust, diversified portfolios for investors.</p> <p>Most multi-asset portfolios are anchored to a static strategic asset allocation that relies on long-term forecasts and assumes a steady relationship between those assets over time. Drummond's strategic asset allocation process provides Drummond with a solid foundation from which to manage its portfolios but it understands that average returns do not always reflect an investor's true experience given extended periods of market performance below and above longer-term expectations. Over shorter time horizons, opportunity exists to improve investor returns through active management. Drummond seeks to avoid large drawdowns and participate in the appreciation of growth assets over the medium term, delivering better risk adjusted portfolio outcomes over time.</p>

# What are the fees and other costs?

## Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

## To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

## Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs for the particular investment options are set out on page 10.

## What are the fees and other costs?

### Fees and costs summary

BT Managed Portfolios		
Type of fee or cost <sup>1</sup>	Amount	How and when paid
<b>Ongoing annual fees and costs<sup>2</sup></b>		
<b>Management fees and costs</b> The fees and costs for managing your investment.	Range from 0.2574% to 0.3087% per annum for each managed portfolio option.  Estimated to range from 0.32% to 0.70% per annum for each managed portfolio option.	<b>Investment management fee</b> Calculated on the average daily value of your portfolio and deducted monthly in arrears from the balance of the cash allocation of your portfolio.  <b>Indirect costs</b> Indirect costs apply to the underlying investments held in your portfolio, which are paid as and when incurred from the assets of the underlying investments and are reflected in their unit or market prices.
<b>Performance fees</b> Amounts deducted from your investment in relation to the performance of the product	Estimated to range from 0.06% to 0.59% per annum for each managed portfolio option.	Performance fees may be charged by the fund manager of an underlying investment. These fees are calculated by reference to the performance of the underlying investment, and are reflected in their unit or market prices.
<b>Transaction costs</b> The costs incurred by the scheme when buying or selling assets	Estimated to range from 0.00% to 0.03% per annum for each managed portfolio option.  Estimated to range from 0.01% to 0.25% per annum for each managed portfolio option.	<b>Transaction fees</b> A transaction fee is charged at the point of sale by deduction from the trade value of the listed securities in your portfolio.  <b>Transaction costs (underlying investments)</b> Transaction costs (net of buy/sell spread) are charged by fund managers of underlying investments as and when incurred in trading activity to execute the investment strategy of the underlying investments (excluding applications and redemptions) and are reflected in their unit or market prices.
<b>Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)<sup>3</sup></b>		
<b>Establishment fee</b> The fee to open your investment	Nil	Not applicable
<b>Contribution fee</b> The fee on each amount contributed to your investment	Nil	Not applicable
<b>Buy-sell spread</b> An amount deducted from your investment representing costs incurred in transactions by the scheme	Nil	Not applicable
<b>Withdrawal fee</b> The fee on each amount you take out of your investment	Nil	Not applicable
<b>Exit fee</b> The fee to close your investment	Nil	Not applicable
<b>Switching fee</b> The fee for changing investment options	Nil	Not applicable

<sup>1</sup> This does not include the Panorama Product fees and costs, see the disclosure document for your Panorama Product. Personal and general advice fees may also apply, see 'Additional explanation of fees and costs'.

<sup>2</sup> The ongoing annual fees and costs applying to each managed portfolio option are set out on page 10.

<sup>3</sup> Additional fees may apply, see 'Additional explanation of fees and costs'.

## What are the fees and other costs?

### Example of annual fees and costs

#### Example of annual fees and costs for a balanced investment option or other investment option

This table gives an example of how the ongoing annual fees and costs for the balanced investment option or other investment option can affect your investment over a 1 year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example - Drummond S2 70 Portfolio		Balance of \$50,000 with a contribution of \$5,000 during the year <sup>1</sup>
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
<b>PLUS</b> Management fees and costs <sup>2</sup>	0.6374%	<b>And</b> , for every \$50,000 you have in the Drummond S2 70 Portfolio you will be charged or have deducted from your investment <b>\$318.70</b> each year.
<b>PLUS</b> Performance fees	0.08%	<b>And</b> , you will be charged or have deducted from your investment <b>\$40.00</b> in performance fees each year.
<b>PLUS</b> Transaction costs <sup>2</sup>	0.01%	<b>And</b> , you will be charged or have deducted from your investment <b>\$5.00</b> in transaction costs.
<b>EQUALS</b> Cost of Drummond S2 70 Portfolio		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of:  <b>\$363.70</b>  <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

1 This example assumes that the \$50,000 is invested for the entire year, the value of the investment is constant over the year and that the additional \$5,000 is invested at the end of the year. Therefore, fees and costs are calculated using the \$50,000 balance only.

2 The individual components that make up the management fees and costs and the transaction costs of the Drummond S2 70 Portfolio are listed on page 10.

The 'Example of annual fees and costs' and the 'Cost of product information' (see below) do not include:

- the Panorama Product fees and costs, see the disclosure document for your Panorama Product; and
- the buy/sell spread charged by the fund managers of underlying managed funds within a managed portfolio option, see 'Additional explanation of fees and costs'.

For more information on fees and costs, see 'Additional explanation of fees and costs'.

### Cost of product information

#### Cost of product for 1 year

The cost of product gives a summary calculation about how ongoing annual fees and costs can affect your investment over a 1 year period for all investment options. It is calculated in the manner shown in the Example of annual fees and costs.

The cost of product assumes a balance of \$50,000 at the beginning of the year with a contribution of \$5,000 during the year. (Additional fees such as an establishment fee or an exit fee may apply: refer to the Fees and costs summary for the relevant option.)

You should use this figure to help compare this product with other products offered by managed investment schemes.

APIR code	Option name	Cost of product
WFS1221AU	Drummond S2 30 Portfolio	<b>\$323.70</b>
WFS4765AU	Drummond S2 50 Portfolio	<b>\$343.70</b>
WFS1280AU	Drummond S2 70 Portfolio	<b>\$363.70</b>
WFS6492AU	Drummond S2 90 Portfolio	<b>\$388.70</b>
WFS4984AU	Drummond S2 100 Plus Portfolio	<b>\$913.70</b>
WFS7789AU	Drummond S2 Dynamic Portfolio	<b>\$409.35</b>

## What are the fees and other costs?

### Additional explanation of fees and costs

#### Management fees and costs

Management fees and costs for each managed portfolio option include the investment management fee and indirect costs.

#### Investment management fee

We are entitled to be paid, and we currently charge, an investment management fee as responsible entity of BT Managed Portfolios. Part of the investment management fee is used to cover the cost of expenses, such as government levies and compliance costs.

We may pay the investment manager a fee for investment management services provided to us. This is paid from the investment management fee we receive and is not an additional cost to you.

#### Indirect costs

The fund managers of underlying investments charge indirect costs in managing the underlying investment's assets within the managed portfolio option which indirectly reduce the return on the managed portfolio option (other than the performance fees or transaction costs). These costs are not charged by us but are generally deducted by the fund manager from the assets of their underlying investments and reflected in their unit or market prices.

In addition, we may charge indirect costs in the cash allocation of each managed portfolio option.

#### Rebates

Our estimates of the indirect costs take into account any rebate passed on by the fund managers of underlying investments for investment costs of the underlying investments within your portfolio.

You are eligible to receive these rebates (if any) provided your Panorama Product remains open at the time the rebate payments are made. The rebate calculation takes into account the time period during which you were invested in your portfolio. It is paid in full to the cash allocation of your portfolio or your Panorama Product's transaction account if you have fully withdrawn from your portfolio.

#### Performance fees

We do not charge a performance fee. However, a performance fee may be charged by a fund manager of an underlying investment within a managed portfolio option. The fee is charged when the underlying investment's returns outperform either a specific benchmark or a performance hurdle return, and it is calculated by reference to the performance of the underlying investment. The performance fee is incorporated in the underlying investment's unit or market price, deducted from the assets of the underlying investment and is thus not deducted by us.

The performance fees disclosed by fund managers of the underlying investments are generally calculated as estimates of the average amounts of annual performance fees accrued over the previous five financial years (subject to certain exceptions, for example where the product was not offered for the previous five financial years).

#### Transaction costs

Transaction costs are generally incurred when underlying investments within a managed portfolio option are bought and sold and when there is trading activity within the underlying investments themselves. They include:

- our transaction fees arising from trading activities within your portfolio relating to listed securities (referred to as 'Transaction fees'); and
- transaction costs relating to the underlying investments within your portfolio (referred to as 'Transaction costs (underlying investments)').

#### Transaction fees

We charge a transaction fee for each transaction when buying and selling listed securities in your portfolio. This transaction fee is payable out of the portfolio assets to which the transaction relates and is deducted by us at the time the transaction is recorded. This fee is an additional cost to you. Generally, the transaction fee will be between 0.11% and 0.18% of the transaction amount but may be as high as 0.20% of the transaction amount. As an example, a \$50,000 transaction in your portfolio attracting a transaction fee of 0.18% would be \$90.

#### Transaction costs (underlying investments)

Transaction costs (underlying investments) are made up of the buy-sell spreads of underlying managed funds and other transactional and operational costs (referred to as 'transaction costs (underlying investments) net of buy/sell spread', as set out below.

#### Buy/sell spread (underlying managed funds)

We do not directly charge a buy/sell spread on managed portfolio options. However, buy-sell spreads are incurred when interests in underlying managed funds within the managed portfolio options are purchased and redeemed. The fund manager of the underlying managed fund may charge an amount representing a contribution to the cost of purchasing or selling the underlying managed fund's assets.

These costs are an additional cost incurred at the time of the transaction and are usually reflected in the difference between the entry price and exit price of a unit in the underlying managed fund. This is commonly referred to as the 'buy/sell spread'. The buy/sell spread is applied before the unit price is provided to us.

At the time of the transaction, the buy/sell spread will be either:

- an amount added as part of the calculation of the entry price, payable when an underlying managed fund (within a managed portfolio option) is acquired (buy spread), or
- an amount subtracted as part of the calculation of the exit price, payable when an underlying managed fund (within a managed portfolio option) is sold (sell spread).

The buy/sell spread charged by the fund manager of an underlying managed fund is an additional cost to you by reducing your investment return. Generally, the buy/sell spread is retained

## What are the fees and other costs?

by the relevant managed fund and applied to defray transaction costs; it is not a fee paid to the fund manager.

The estimated buy/sell spread incurred by each Drummond Series 2 managed portfolio option is listed in the table under the 'Gross transaction costs' section.

### Gross transaction costs

The estimated gross transaction costs of the Drummond Series 2 managed portfolio options are listed below.

The gross transaction costs take into account transaction fees and transaction costs (underlying investments) as described above.

Portfolio name	Transaction fees (pa)	Gross transaction costs (underlying investments) (pa)		Total gross transaction costs (pa)
		Transaction costs (underlying investments) net of buy/sell spread <sup>1</sup>	Buy/sell spread (underlying managed funds) <sup>1</sup>	
	(A)	(B)	(C)	(D) = (A) + (B) + (C)
Drummond S2 30 Portfolio	0.00%	0.01%	0.08%	0.09%
Drummond S2 50 Portfolio	0.00%	0.01%	0.10%	0.11%
Drummond S2 70 Portfolio	0.00%	0.01%	0.12%	0.13%
Drummond S2 90 Portfolio	0.00%	0.01%	0.13%	0.14%
Drummond S2 100 Plus Portfolio	0.03%	0.25%	0.11%	0.39%
Drummond S2 Dynamic Portfolio	0.00%	0.02%	0.10%	0.12%

<sup>1</sup> The buy/sell spread may be charged by fund managers of underlying managed funds.

The estimated transaction costs shown in the 'Fees and costs summary' table above and the 'Drummond Series 2 managed portfolio options list' table below are net of any buy-sell spreads incurred from transactions in the underlying managed funds held within the Drummond Series 2 managed portfolio options.

### Changes in fees

You agree that we have the right to change the amount of fees, but we will provide at least 30 days' notice prior to any increase (or otherwise as required by law).

Under the scheme's Constitution the responsible entity may receive a maximum investment management fee of 4% per annum (excluding GST) of the total value invested and a maximum performance fee of 5% per annum (excluding GST) of the total value invested.

### Estimated fees and costs calculation methodology (managed portfolio options)

We calculate estimated fees and costs based on information available to us during the preparation of this document (including the disclosure documents of underlying investments) and make reasonable estimates where fees and costs information is not available. Actual fees and costs are not fixed but can vary over time and depend on the underlying investments and their weightings within the managed portfolio option, how the underlying investments are traded and the actual fees and costs incurred.

### Transaction costs (underlying investments) net of buy/sell spread

A fund manager of an underlying investment may incur its own transactional and operational costs in implementing an underlying investment's strategy, such as brokerage, stamp duty, clearing costs and settlement costs. These costs reduce the value of the underlying investments and are charged at the time of trading activity and incorporated into the underlying investment's unit or market price.

### Tax

The benefit of any reduced input tax credit (RITC) has been passed onto you. Except where otherwise stated, all fees and costs in this document include GST and are net of RITC.

For information about tax generally refer to 'Taxation' in Part 1 of the PDS.

### Other fees and costs

All other fees and costs (such as government fees, bank fees, fees for failed transactions and penalty interest) incurred in a transaction, deposit or withdrawal will be passed on to you by deduction from the cash allocation of your portfolio.

### Adviser remuneration - personal advice

Advice fees may be deducted from your Panorama Product transaction account where you have signed a fee deduction consent by arrangement with your financial adviser according to the adviser's fee disclosure.

# Drummond Series 2 managed portfolio options list

The fees and costs applying to each managed portfolio option are set out below.

Portfolio name	Management fees and costs (pa)			Performance fees (pa)	Transaction costs (pa)			Total ongoing annual fees and costs (pa) <sup>4, 5</sup>	Page
	Investment management fee	Indirect costs	Total <sup>1</sup>		Transaction fees	Transaction costs (underlying investments) net of buy/sell spread <sup>2</sup>	Total <sup>3</sup>		
ASSET CLASS: Diversified									
Drummond S2 30 Portfolio	0.2574%	0.32%	0.5774%	0.06%	0.00%	0.01%	0.01%	0.6474%	11
Drummond S2 50 Portfolio	0.2574%	0.36%	0.6174%	0.06%	0.00%	0.01%	0.01%	0.6874%	12
Drummond S2 70 Portfolio	0.2574%	0.38%	0.6374%	0.08%	0.00%	0.01%	0.01%	0.7274%	13
Drummond S2 90 Portfolio	0.2574%	0.43%	0.6874%	0.08%	0.00%	0.01%	0.01%	0.7774%	14
Drummond S2 100 Plus Portfolio	0.2574%	0.70%	0.9574%	0.59%	0.03%	0.25%	0.28%	1.8274%	15
Drummond S2 Dynamic Portfolio	0.3087%	0.38%	0.6887%	0.11%	0.00%	0.02%	0.02%	0.8187%	16

<sup>1</sup> The total management fees and costs are made up of the investment management fee and the indirect costs.

<sup>2</sup> The buy/sell spread may be charged by the fund managers of underlying managed funds.

<sup>3</sup> The total transaction costs are made up of the transaction fees and the transaction costs (underlying investments) net of buy/sell spread.

<sup>4</sup> The total ongoing annual fees and costs are made up of the total management fees and costs, performance fees and the total transaction costs. They do not include the Panorama Product fees and costs (see the disclosure document for your Panorama Product); and the buy/sell spread charged by the fund managers of underlying managed funds within a managed portfolio option (see 'Additional explanation of fees and costs').

<sup>5</sup> For more information on fees and costs, see the 'What are the fees and other costs?' section in this document.

# Drummond Series 2 managed portfolio options summaries

## Drummond S2 30 Portfolio

APIR code	WFS1221AU		
Designed for investors who	Seek a diversified portfolio with regular income. They are prepared to accept a medium to high level of risk to achieve this objective.		
Investment objective	To deliver a return in line with the benchmark, after fees, over a rolling three year period with lower than benchmark drawdown.		
Benchmark index	Morningstar Australia Moderate Target Allocation NR AUD Index		
Asset class	Diversified		
Investment style	Active		
Investment strategy and approach	The portfolio is an actively managed diversified mix of defensive assets (such as cash and fixed interest) and growth assets (such as Australian and international shares, listed property and infrastructure). In general, the portfolio's long term average exposure will be around 70% defensive assets and around 30% in growth assets. However, the tactical asset allocation overlay adopted by Drummond allows for the deviation in long term average within +/- 10%.		
Investment universe	Australian registered managed funds and exchange traded funds		
Risk label (SRM)	Medium to high (5)		
Minimum investment horizon	3 years		
Minimum investment amount	\$25,000		
Indicative number of assets	8 – 40		
Management fees and costs <sup>1</sup>	0.5774% pa		
Performance fees <sup>1</sup>	0.06% pa		
Transaction costs <sup>1</sup>	0.01% pa		
Asset allocation ranges	Asset class	Minimum (%)	Maximum (%)
	Cash <sup>2</sup>	1	80
	Australian fixed interest	0	70
	International fixed interest	0	70
	Fixed interest other	0	50
	Australian shares	0	20
	International shares	0	40
	Australian property	0	20
	International property	0	20
	Listed infrastructure	0	20
	Alternatives <sup>3</sup>	0	20

<sup>1</sup> For more information on fees and costs, see 'What are the fees and other costs?' section in this document.

<sup>2</sup> The 'Cash' asset class includes the cash allocation of the portfolio that is held in a cash product nominated by us but may include allocation to other cash type investments.

<sup>3</sup> The 'Alternatives' asset class may contain both defensive and growth assets.

## Drummond S2 50 Portfolio

<b>APIR code</b>	WFS4765AU		
<b>Designed for investors who</b>	Seek a diversified portfolio with some potential for capital growth and regular income. They are prepared to accept a high level of risk to achieve this objective.		
<b>Investment objective</b>	To deliver a return in line with the benchmark, after fees, over a rolling five year period, with lower than benchmark drawdown.		
<b>Benchmark index</b>	Morningstar Australia Balanced Target Allocation NR AUD Index		
<b>Asset class</b>	Diversified

<sup>2</sup> The 'Cash' asset class includes the cash allocation of the portfolio that is held in a cash product nominated by us but may include allocation to other cash type investments.

<sup>3</sup> The 'Alternatives' asset class may contain both defensive and growth assets.

## Drummond S2 90 Portfolio

<b>APIR code</b>	WFS6492AU		
<b>Designed for investors who</b>	Seek a diversified portfolio with the potential to deliver a high total return, mainly from long term capital growth. They are prepared to accept a high level of risk to achieve this objective.		
<b>Investment objective</b>	To deliver a return in line with the benchmark, after fees, over a rolling nine year period with lower than benchmark drawdown.		
<b>Benchmark index</b>	Morningstar Australia Aggressive Target Allocation NR AUD Index		
<b>Asset class</b>	Diversified		
<b>Investment style</b>	Active		
<b>Investment strategy and approach</b>	The portfolio is an actively managed diversified mix of defensive assets (such as cash and fixed interest) and growth assets (such as Australian and international shares, listed property and infrastructure). In general, the portfolio's long term average exposure will be around 10% defensive assets and around 90% in growth assets. However, the tactical asset allocation overlay adopted by Drummond allows for the deviation in long term average within +/- 10%.		
<b>Investment universe</b>	Australian registered managed funds and exchange traded funds		
<b>Risk label (SRM)</b>	High (6)		
<b>Minimum investment horizon</b>	9 years		
<b>Minimum investment amount</b>	\$25,000		
<b>Indicative number of assets</b>	8 – 40		
<b>Management fees and costs<sup>1</sup></b>	0.6874% pa		
<b>Performance fees<sup>1</sup></b>	0.08% pa		
<b>Transaction costs<sup>1</sup></b>	0.01% pa		
<b>Asset allocation ranges</b>	<b>Asset class</b>	<b>Minimum (%)</b>	<b>Maximum (%)</b>

<sup>3</sup> The 'Alternatives' asset class may contain both defensive and growth assets.

## Drummond S2 100 Plus Portfolio

<b>APIR code</b>	WFS4984AU		
<b>Designed for investors who</b>	Seek high capital growth potential by investing in a diversified, unconstrained, high growth strategy with exposure to leveraged / geared assets. They are prepared to accept a very high level of risk to achieve this objective.		
<b>Investment objective</b>	To outperform the benchmark, after fees, over a rolling nine year period.		
<b>Benchmark index</b>	Morningstar Australia Aggressive Target Allocation NR AUD Index		
<b>Asset class</b>	Diversified		
<b>Investment style</b>	Active		
<b>Investment strategy and approach</b>	<p>The portfolio is an actively managed diversified mix of predominantly growth assets and can include exposure to internally geared products. Drummond also uses tactical asset allocation to tilt the portfolio away from the neutral allocation over shorter time frames. In general, the portfolio's long term exposure will be around 2% defensive assets and 98% in growth assets. However, the tactical asset allocation overlay adopted by Drummond allows for deviation in long term average within +/- 10%.</p> <p>Drummond looks to improve portfolio returns through active management and its investment process, which includes four elements: strategic asset allocation, tactical asset allocation, investment manager research and portfolio construction. Drummond adopts a diversified, unconstrained high growth strategy, which includes investment in leveraged / geared assets and alternative investments to participate in the appreciation of growth assets over the long term. At times, the portfolio may significantly deviate from Drummond's neutral asset allocation settings and may include significant allocations to alternative investments and may include less-liquid investments.<sup>1</sup></p>		
<b>Investment universe</b>	Australian registered managed funds and exchange traded funds		
<b>Risk label (SRM)</b>	Very high (7)		
<b>Minimum investment horizon</b>	9 years		
<b>Minimum investment amount</b>	\$25,000		
<b>Indicative number of assets</b>	8 – 40		
<b>Management fees and costs<sup>2</sup></b>	0.9574% pa		
<b>Performance fees<sup>2</sup></b>	0.59% pa		
<b>Transaction costs<sup>2</sup></b>	0.28% pa		
<b>Asset allocation ranges</b>	<b>Asset class</b>	<b>Minimum (%)</b>	<b>Maximum (%)</b>
	Cash <sup>3</sup>	1	10

<sup>3</sup> The 'Cash' asset class includes the cash allocation of the portfolio that is held in a cash product nominated by us but may include allocation to other cash type investments.

<sup>4</sup> The 'Alternatives' asset class may contain both defensive and growth assets.

## Drummond S2 Dynamic Portfolio

<b>APIR code</b>	WFS7789AU		
<b>Designed for investors who</b>	Seek return above inflation with some capital growth by investing in a diversified portfolio. They are prepared to accept a high level of risk to achieve this objective.		
<b>Investment objective</b>	To deliver an investment return in line with the benchmark, after fees, over a rolling five-year period.		
<b>Benchmark index</b>	Consumer Price Index + 4% p.a.		
<b>Asset class</b>	Diversified		
<b>Investment style</b>	Active		
<b>Investment strategy and approach</b>	<p>The portfolio is a goals based portfolio that tactically adjusts the level of risk taken (via growth assets such as Australian and international shares, listed property infrastructure) in order to achieve its targeted return. The portfolio has a dual objective of the target return, whilst maintaining a strong focus on downside risk management. To achieve this dual objective, the portfolio has a flexible asset allocation strategy. This enables Drummond to take advantage of opportunities as they arise, participating in the long-term asset growth when times are good and conversely protecting capital by moving to defensive assets (such as cash and fixed interest) during negative periods.</p> <p>In general, the portfolio's long term average exposure will be around 50% defensive assets and around 50% in growth assets. However, the portfolio's strategy is relatively unconstrained and actual asset allocation can deviate from the long-term average position within +/- 40%.</p>		
<b>Investment universe</b>	Australian registered managed funds and exchange traded funds		
<b>Risk label (SRM)</b>	High (6)
